

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Elliott J. Mason III (Reg No. 56,569) on 10/06/2008.
3. Please amend the claims as follows:

Claim 13. (Currently Amended) A task execution system including:

a repository including data conforming to a data model, the data model specifying a graphical representation of task dependency, including

a plurality of task elements each associated with a different task,

a resource element having a plurality of attachment locations, wherein the resource element comprises a timeline with the attachment locations being associated with points on the timeline, and

linking elements coupling the task elements to the resource element at the plurality of attachment locations, wherein couplings of task elements to attachment locations on the resource element specify an execution ordering constraint on the tasks associated with the task elements to define an order in which the tasks are to be executed, and

a task execution module including at least one processor, having access to the repository over at least one input device or port in communication with the repository, configured to execute the tasks according to the graphical representation of task dependency.
